A Stiefahr to Child Training

A party of friends, during a social call, were chatting about their little ones lu the fond proud way that parents will. when one, a man of the world and a acator-said gally; "My little pass len's bashful-not a bit of it. She knows how to hold her own-little two year-old as she is. She is a fast one, I assure you."

A young student, henring the profess or's remark, and noting the parent's pleased manner as he spoke thus of his of his Hp said:

"Yes, that's the way it goes. When their daughters are babies, they let them be as rude and forward as they will, and think it smart, and call them 'fast,' and have the pleasure of hearing other men call them 'fast,' and-laugh on the other side of their mouths."

A stroke of lightning out of a clear sky could not more have startled the mother than did these words from her son. That youth, a mere boy, himself by no means a model of perfection, had with one sentence, fathomed the depths of our of our period's sorest evils. I have not drawn from imagination for

my illustration. Within the past week the youth's plain words were spoken within my hearing. I yet recall the half-conthat he attered fingers yet in my memory. -Christian Weekly.

How Cont was Discovered in Pennsylva. in.

It chanced one day that in constructing a lime kiln, Col. Geo. Shoemaker, who prepared to enter into a long argument. Oh! there is such a world of comfort lived on the Schnyikill river, as d some o witness the marvel. This happened in 1812. Shortly after mine host loaded a Pennsylvania team with the black stoneand journeyed slowly to Philadelphia, a distance of ninety-three mil-s. There un-Clarke, in his Commentaries upon the foreseen difficulties were presented. The formed in every respect to walk like a digest his disappointment in his mountain
